

Cereal TIC-TAC-TOE

use different cereals to play

YES, it's time
to play with
your food for
once!

A healthy start!

To start the day, cows eat a balanced mix of forages, grains, protein supplements, byproducts, vitamins, and minerals, also called Total Mixed Ration.

Q: How many cups of milk can a cow make in one day?

Wow!

Studies show that kids who start the day with breakfast, like cereal and milk, do better in school.

Over 50 variations of spoons are used for many specific tasks!
